Mumbai: Bajaj Allianz General Insurance has introduced two new motor insurance add-on covers: Eco Assure – Repair Protection and Named Driver Cover.

These offerings aim to enhance customer convenience, promote sustainability, and provide personalized coverage.

The Eco Assure – Repair Protection add-on prioritizes sustainability by enabling repairs using sustainably restored parts or new parts when necessary, reducing the carbon footprint. It includes one-year repair protection, pick-up and drop-off services, and zero depreciation costs for repairs carried out at Bajaj Allianz's preferred workshops.

Policyholders also benefit from 24x7 roadside assistance, engine and gearbox protection, coverage for consumables, and specific protection for electric and hybrid vehicles. The add-on covers damages caused by issues such as fuel adulteration and rodent bites. Additional benefits include coverage for personal baggage loss, key replacement, and legal defense costs, with a limit of up to Rs. 50,000.

The add-on is available for private cars up to 12 years old under the Own Damage section of the policy. Customers opting for this cover will receive a Green Certificate of Acknowledgment for contributing to environmental conservation.

The Named Driver Cover is designed for policyholders whose vehicles are driven by specific individuals. It offers own-damage protection for the vehicle when driven by the owner, a chauffeur, or other declared named drivers.

The cover also extends protection to the owner-driver while driving another vehicle without its own damage cover but insured with a valid third-party policy. This feature ensures financial security for the policyholder. Additionally, policyholders can add or remove named drivers during the policy term, allowing flexibility.

Tapan Singhel, MD & CEO of Bajaj Allianz General Insurance, said that the Eco Assure – Repair Protection add-on was to empower customers to choose eco-friendly repairs without compromising quality or safety. “This reduces environmental impact and provides significant value. Similarly, the Named Driver Cover reflects our commitment to personalized protection, ensuring coverage for trusted individuals and offering flexibility for owners driving multiple cars,” said Singhel.
